

DriverLocate is proud to offer DriverLocate customers two-way communication with their drivers by integrating one of a number of compatible Garmin™ Nüvi®, and navigation units with the DL600-NAV tracking device.

Recommended Garmin devices include:

12xx, 13xx, 14xx, supporting versions 2.7 Fleet Management Interface (Garmin FMI)

Other supported Garmin devices include:

2xx5, 24xx, 22xx, 23xx, supporting versions 2.6 Fleet Management Interface (Garmin FMI) and 2x5, 465T Series supporting versions 2.1 Fleet Management Interface (Garmin FMI).

**Note:** All Garmin devices with the 2.1 or greater version of the Fleet Management Interface are supported.

A list of compatible Garmin devices and detailed information for each series are available from Garmin's Commercial Solutions site at:
